sriram.website · linkedin.com/in/sriram-s · github.com/SriramGandhiS

PROFESSIONAL SUMMARY

Full-stack developer with experience building web, mobile, and AI-integrated applications — REST API design, backend development, database management, and cloud deployment. Built production systems serving 1,500+ users with 99.9% uptime. National-level hackathon winner with hands-on experience developing real-world software solutions.

SKILLS

Languages: Java, JavaScript, Python, SQL

Frontend: React.js, HTML5, CSS3

Backend: Node.js, Java Spring Boot, REST APIs

Database: MySQL, MongoDB

Tools: Git, GitHub, Google Apps Script, AI APIs

PROJECTS

HireSense — AI Interview Platform for Students

React.js · Node.js · REST APIs · AI Integration · [Live Demo](#) | [GitHub](#)

- Built an AI-powered mock interview platform for students with ATS insights, interview analysis, and improvement recommendations.
- Integrated Ollama voice transcription and Groq API feedback generation using REST APIs.

Event Registration System — CSE UTSAV 2K26

HTML5 · JavaScript · Google Apps Script · Google Sheets API · [Live Demo](#) | [GitHub](#)

- Built a registration portal handling 1,500+ participants across 10 events with 99.9% uptime — automated data sync via Google Apps Script and Sheets API.
- Reduced invalid submissions by ~80% using multi-layer client-side validation; led end-to-end event operations as Student Coordinator.

Rules of India (ROI) — Legal Learning Mobile App

Flutter · Dart · Mobile App Development · Gamification · [GitHub](#)

- Built a cross-platform Flutter app with a gamification engine — maps real-world crash scenarios to relevant IPC sections, making legal content interactive.
- Won Rs.15,000 first prize at a 24-Hr National Hackathon (30+ teams) — delivered a working prototype within 24 hours.

Javino — AI Media Authenticity Detection Platform

React.js · Java Spring Boot · Python · MongoDB · REST APIs · [Live Demo](#) | [GitHub](#)

- Detects AI-generated or manipulated media using metadata inspection and heuristic analysis — React.js frontend connected to Java Spring Boot REST APIs and Python backend services.
- Generates authenticity scores and stores detailed reports in MongoDB; built with a modular backend architecture.

CERTIFICATIONS

AWS: Generative AI Foundations

Internshala: Core Java with AI — 8-Week Certification

HackerRank: JavaScript, Python, Java, SQL (Advanced & Intermediate)

MongoDB: Vector Search · Schema Design

ACHIEVEMENTS & RECOGNITION

Winner — National Hackathon: Won Rs.15,000 at 24-Hr Hackathon, Rathinam College of Engineering, outperforming 30+ teams — recognized for technical execution and rapid prototyping.

Technical Recognition — Commended by HOD and VP, SISA Information Security Pvt. Ltd., for technical quality and professional conduct.

Student Coordinator — Managed end-to-end registration, real-time tracking, and post-event reporting for CSE UTSAV 2K26 across 10 competition categories.

EDUCATION

B.E. Computer Science & Engineering 2023 – 2027

PSNA College of Engineering and Technology, Dindigul

Higher Secondary (CBSE) Completed 2023

KRS Higher Secondary School, Madurai
